KIMPTON ANGLERS

Located in the heart of the famous Art Deco district, the Anglers property is central to the beach, Ocean Drive and numerous restaurants.

From the moment you walk in, Kimpton welcomes you with a sweet aroma and wine. For those of us that don't drink alcohol, they also have a fresh fruit infused water station. From that moment forward you can sense the tranquility that the property offers. I loved the design choice of having shades of blues, bamboo flooring and marble bathrooms. It provided an elevated touch to an already immaculate room.

Miami is known for its late nights, club scene and loud music but you would never know that by staying at Anglers. You can get a full night rest without any noise! A secluded getaway in the midst of entertainment!

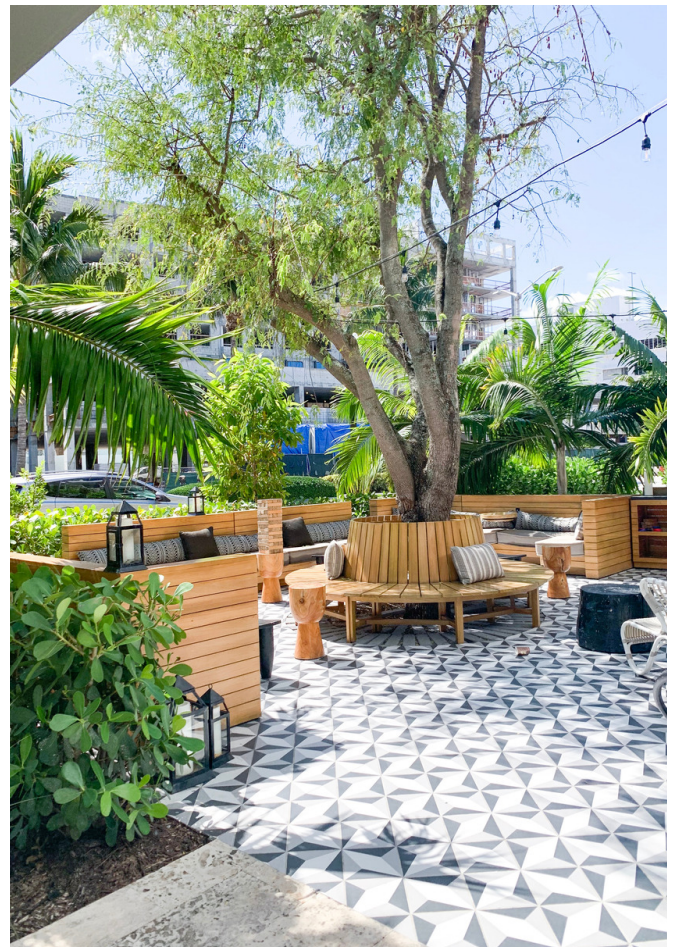

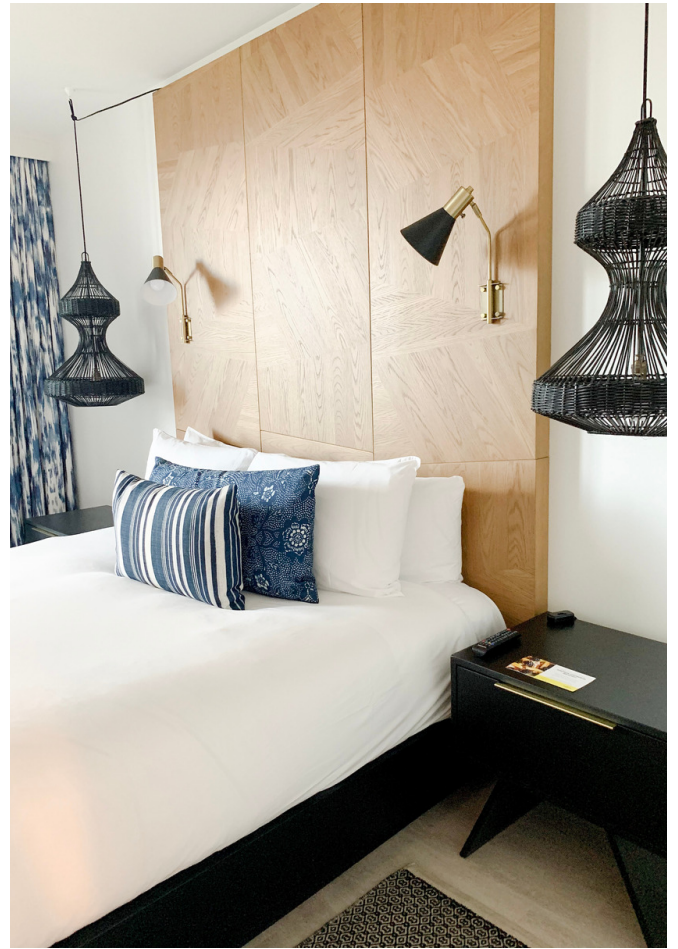

With many included amenities, it was hard to want to leave the property! I loved the daily HITT classes, lounging by the rooftop pool and enjoying the Minnow bar downstairs for some virgin mojitos!

When visiting South Beach, Kimpton Anglers is the best choice!

POOLSIDE FUN

DESIGN DISTRICT

The name gives it away! Full of vibrant colors and design, there is something for everyone. The design district is home to all our favorite designers and some hidden gems!

The least hidden being the Fendi storefront! Celebrating the collaboration between FENDI and world renowned graffiti artist, PERF, the storefront was transformed into a colorful array of neon!

The most hidden of these gems was Cafe Dior! Located inside the Dior store, you walk into luxury world and become completely consumed with the highend handbags and accessories.

Once that feeling subsides, you will be greeted by a young woman that asks if you are there for the Cafe and how many are in your party. When we said four, she mentioned that there was only one table available directly under the sun. We said yes and once we took the elevator down, we noticed that there were multiple tables available!

Moral of the story: Say yes and check out the space once you are there! We were able to sit in any table of our choosing!

It's seriously the cutest cafe with photo opps everywhere you look!

DREAMING IN COLOR

FAENA

I highly recommend having breakfast at Veranda and spending the morning walking the grounds and enjoying the gorgeous scenery.

From the Veranda you look out onto the pool and beach; it's the most stunning view! The red and white pop against the deep blue dancing with the sunlight.

I enjoyed the delicious South Beach Scramble that consisted of local crab, avocado, chimichurri and fresh fruit paired with the cleanser; a lime, ginger, lemon and agave juice.

The clear photo opportunities are the golden mammoth, luscious vegetation, pool area and the gorgeous umbrellas at the beach.

They didn't mind photography on the property and were very accommodating!

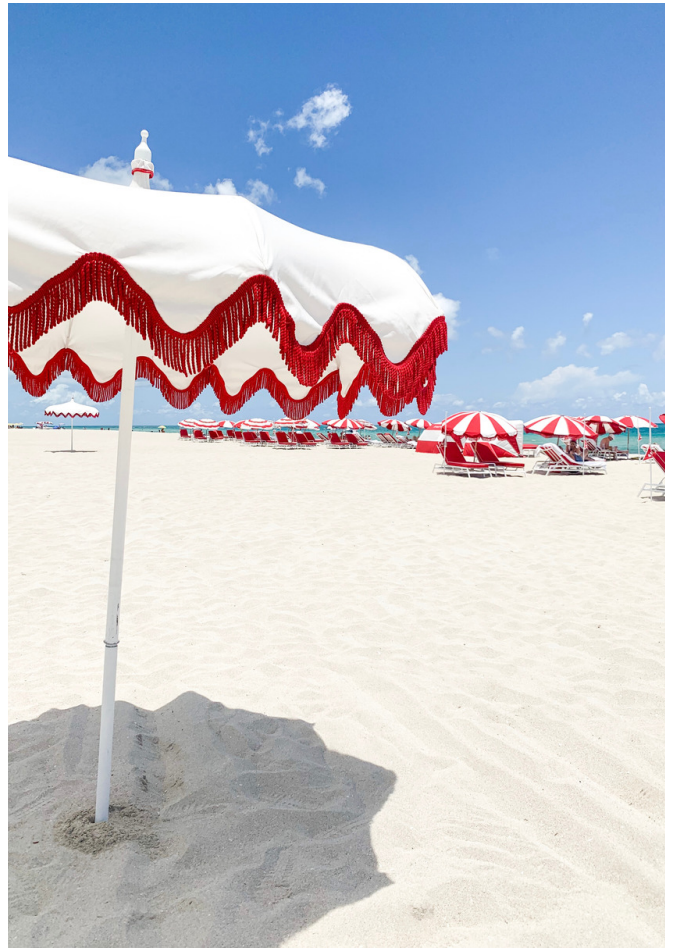

Another plus about this property is that there is an onsite theater, high end boutique, award-winning spa and stunning details!

A must see!

RECUERDOS ROJOS

VIZCAYA MANSION

Three years ago I decided that when my time came, I was going to sell all my belongings and live the rest of my life in Italy.

Italy captivated my heart and I knew I wanted to experience more of it! When I step foot into the Vizcaya Mansion & Gardens it was as if I was transported back to Italy! The art, details and architecture were obviously Italian inspired! It was breathtaking!

Commissioned by Chicago business man James Deering in 1914, Vizcaya was inspired by his Italian travels. He spent multiple years acquiring the antiquities that you will see adorning the mansion, including a vintage Louis Vuitton trunk!

With the ticket cost of only \$22, we arrived an hour before closing and still had plenty of time to explore every corner!

They have a strict photography policy and you will not be able to have a photoshoot styled session. Since we were dressed up, we had to assure them that all photos were being taken with an iPhone. If you want to have a styled photoshoot, the cost is \$161 for a group of five during the weekday.

A little bit of Italy in Florida.

VERSACE MANSION

Purchased by Gianni Versace in 1992, the Versace mansion was transformed into what you see today!

Along with the purchase of the home, he purchased the lot beside it. He then created his south wing, swimming pool and garden. After a total of \$38 million spent purchasing, demolishing and remodeling, the mansion was completed in 1995. Versace was only able to enjoy his home for two years before his tragic death.

The mansion is a work of art inspired by Gianni's passion for Spanish architecture. From the moment you walk in, you feel like royalty and get to experience an elevated Latin vibe.

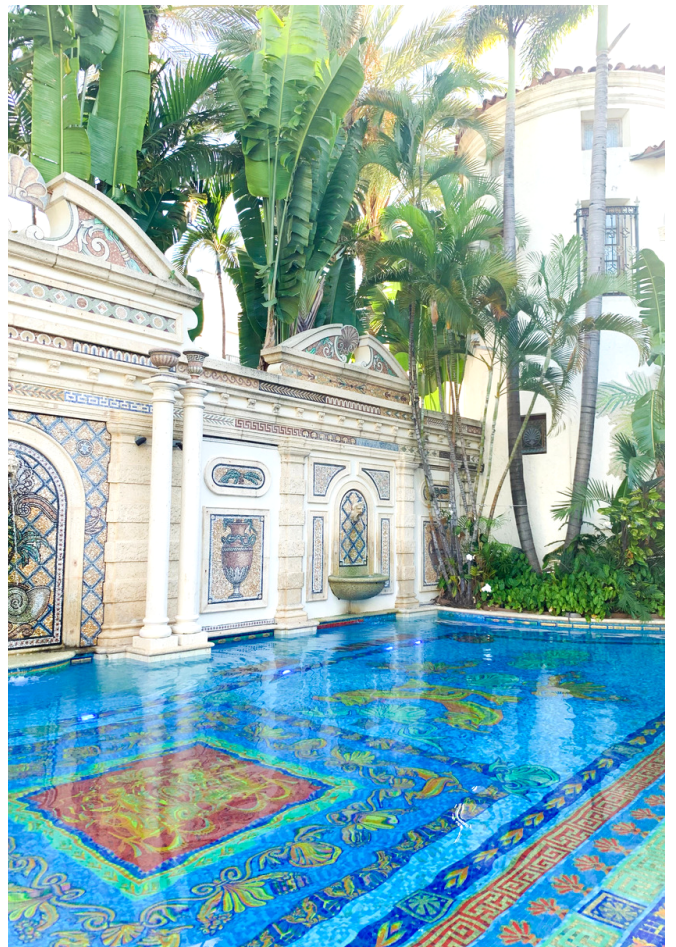

Dinner was absolutely exquisite and delightful! I had the Linguine Pescatore and it was divine! The home-made squid ink pasta was light, refreshing and a taste of what pasta should actually be!

Dinner at Gianni's is a must!
